

Calibration Certificate

Kind of Equipment	CA5000;CellAdvisor 5G - requires one frequency option	This calibration certificate confirms that the measurements recorded in the applicable calibration report are within their specified limits and are specific to the unit with the serial number listed below.
Type/Model No	CellAdvisor 5G	
Product Number (BN) or Options Fitted	No Options	This unit was calibrated with direct comparison to a standard(s) required to calibrate this type of equipment.
Serial Number	KDF91721	
Manufacturer	VIAVI	The calibration results are traceable to the National Institute of Standards and Technology (NIST) which are consistent with the recommendations of the General Conference on Weights and Measures (CGPM), or to standards derived from natural constants, or to standards relying on ratio measurements with self-calibrating technique for their calibration. If a National Standard is not available, the result is traceable to the Reference Standard of Viavi Solutions.
Customer	COVERTEL COVERTEL PTY LTD 114 BAKEHOUSE ROAD KENSINGTON VIC 3031 AU	
Calibration Report No and Date	VC212845 / 25 Aug 2025	The calibration has been carried out within a certified quality system according to ISO 9001. The metrological confirmation system of measuring equipment complies with ISO 10012-1.
Confirmation Interval		
Ambient Temperature /Relative Humidity	Not Found	The stated confirmation interval shall be regarded as a recommendation. The real definition of the confirmation interval should be made by the user. The type of application and the environmental conditions should be taken into account.
Definitely out of limits when received	No	
Adjustment has been performed	Left As Found	
Remarks		

Date	Stamp	Service Management	Tester
25 Aug 2025
